

(CIA LETTERHEAD)

16 August 1973

Mr. Charles R. McClure  
History-Government Librarian  
The University of Texas at El Paso  
El Paso, Texas 79902

Dear Mr. McClure:

Your letter of 9 August 1973 addressed to the Deputy Director of this Agency has been referred to me for reply.

Maps produced by the Central Intelligence Agency are normally not available for public distribution. As a consequence, there are no depositories designated for this material outside the U. S. Government. Some CIA maps are periodically reissued by the Government Printing Office, and these maps will presumably continue to be sent to your library in its capacity as a Government Documents Depository.

Thank you for your kind interest and inquiry.

Sincerely,

STATINTL

Acting Director  
Basic and Geographic Intelligence
